TEJAS S

+91-8296104378 tejasshivu21@gmail.com

OBJECTIVE

Entry-level Computer Science graduate seeking an Associate Trainee role in a Global Service Desk environment, with a strong foundation in IT fundamentals and problem-solving. Willing to work in 24×7 rotational shifts and eager to build expertise in cloud and infrastructure technologies while delivering reliable technical support.

EDUCATION

Global Academy Of Technology **2021 – 2025**
*B.E. in Computer Science - **CGPA – 6.33*** *Bengaluru, India*

Jain PU College **2019 – 2021**
*Pre-University - PCME - **Percentage** – 70%* *Bengaluru, India*

Bangalore International Academy (CBSE) **2017 – 2019**
*High School - **Percentage - 75%*** *Bengaluru, India*

PROJECTS

Knee Osteoarthritis Detection And Classification | Python, TensorFlow,Keras

- Built a deep learning–based system for **knee osteoarthritis detection and severity classification** using X-ray images.
- Implemented **VGG19, ResNet50, and MobileNetV2** with transfer learning in Python
- **Applied preprocessing and data augmentation to improve generalization and accuracy.**
- **Evaluated models using standard classification metrics; ResNet50 achieved best performance.**

Hotel Review Sentiment Analysis | Python, TensorFlow, Keras, Scikit-learn, NLP

- Developed a sentiment classification system for hotel reviews using **CNN**, **LSTM-CNN**, and **BiLSTM-CNN** architectures.
- Implemented **text preprocessing** (tokenization, padding) and mapped ratings to binary sentiment for supervised learning.
- Compared model performance via **accuracy metrics** and visualized training/validation curves for each architecture.
- Created an **interactive prediction tool** for real-time sentiment analysis of user-provided reviews.

TECHNICAL SKILLS

Languages: Java,python,SQL
Databases: MySQL
ML Concepts: Supervised Learning, Data Visualization
Concepts: Data Structures, Object-Oriented Programming
